record store

A digital camera of two main parts: a body and a lens. When a button is on the body, a window in the lens called a *shutter* and light the camera. The amount of light going into the camera is by both the speed of this shutter, and a smaller window called an *aperture*. Both the shutter speed and the size of the aperture can be by the person using the camera. The light a sensor in the body of the camera, which the light as a digital image. The image is on a memory card in the camera, and this can later be on to a computer.
